February 2024

To whom it may concern,

This letter serves to confirm that:

- is a Lansweeper partner and authorized to sell licenses for the Lansweeper software to end-users and renew Lansweeper subscriptions purchased via **Irisz Holding**
- End-users who own a valid Lansweeper license purchased through **Irisz Holding** are entitled to technical support provided by Lansweeper, developer of the Lansweeper software.

Lansweeper is software used to perform hardware and software scans and inventory of IT, IOT and OT networks.

Several licensing plans are available, details of which can be viewed on our website. While the Lansweeper software itself can be freely downloaded through the website, a license key is required to scan more than 100 assets and unlock all product features.

Sincerely,

Christina Klein

Head of Global Partnerships
